10-13 FEBRUARY 2025

CASCAIS, PORTUGAL

INNOVATION ENGINE

 catalysts

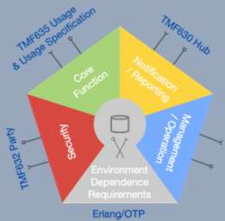

Catalysts Activities Throughout the Week

building code +
frameworks together

ALL WEEK– Joint sessions

Joint sessions will bring together our Member project teams to build solutions to the challenges within our three Missions: Autonomous Network Operations, Composable IT & Ecosystems, Data and AI Innovation

Catalyst team members can pick ones that best match their objectives and bring their expertise to help work on, ODA Components and Canvas, Open APIs, Business Assurance, Wholesale Broadband, Ecosystem Management and Modelling, Techco Organizational Design, and much more

Understand the ODA assets more and the benefit is they can take them and use them in their catalysts.

MONDAY – General Session” Scrum of Scrums

Overview from each member project, vision roadmap, and plan for the week with special mention of opportunities for Catalyst team members to connect:

Speak directly with member project teams to identify how their work may relate to your Catalyst

Gain awareness of assets available to help build and strengthen your solutions

Explore opportunities for your hard work and outcomes to have a lasting effect (and maybe even win an award) by contributing back to the TM Forum

TUESDAY – Cocktails and Catalyst Pitches

Curious about Catalysts? Considering getting involved?

Join us for a drink while our DTW-Ignite 2025 Catalyst teams share insights on their projects and how you can join them in driving industry innovation

A representative from each team can give a 2-minute pitch to fellow attendees

Teams given a 1-slide template and strictly kept to time

MUST be registered for Accelerate and reserve spot by **Friday 17 January**

Limited availability, first come, first served – *approx. 15 teams, have the option to do additional pitches on Thursday overflow pitches*

A row of wooden award plaques is shown in the background. The plaques are light-colored wood with a blue and green graphic design. The text on the plaques includes "tmforum", "BEST HOONSHOT CATALYST", "The Energy Challenge", "2021 award winner", and "OUTSTANDING CATALYST Business Growth".

WEDNESDAY Outstanding Contributions Awards

Celebrate the winning Catalyst teams for their contributions to Collaboration Member projects

THURSDAY – Catalyst Day at Accelerate

Accomplishing weeks' worth of work in just a single day

TM Forum's Catalyst Day at Accelerate provides an exclusive, in-person opportunity for current and potential project members to grow their teams, fast-track progress, and build momentum toward viability to showcase at DTW-Ignite 2025!

OPENING SESSION - DRIVING TOWARD DTW-IGNITE

Everything teams need to know to successfully showcase their Catalyst at DTW-Ignite 2025

Catalyst program overview and new features

Tasks, tips, & tricks to get your team to the finish line

Promoting your Catalyst for maximum impact

INNOVATION IN ACTION - CATALYST TEAMS WORKING SESSIONS

Achieve outcomes faster, working in person for a head-start on delivering your solutions in Copenhagen

Take advantage of direct access to TM forum subject matter experts and hear how our Forum assets can help bring your project to the next level

Attract and onboard new project members and grow your team

Not on a team yet? Come meet with over a dozen project teams, discuss shared goals, and see how you can become a partner

Ask-Us-Anything desk – Onsite Catalyst program team support available for all prospects and project planning inquiries
