## 2. Project Overview / Executive Summary

<b>Mission</b>	Accelerate our members ability to Design, Plan, Operationalize & Assure new smart city market opportunities through insights, practices and tangible assets enabling a structured, scalable approach to pivoting and commercializing new services. Enable Smart City Executives to monitor and measure the impact of smart city solutions through the benchmarking tool.
<b>Value</b>	Enables realization of the smart city manifesto through delivery of interoperable scalable solutions to realize the circular economy and better places to live.
<b>Strategy</b>	Development of the Open Digital Framework for Smart Cities with the critical attention on industry collaborative assets which will underpin interoperable scalable solutions, enabling ease of partnering through data model harmonization and API component suites. Forge relationships across city organizations which will provide validation, co-innovation and partnering opportunities for our members.
