

TMF670 Payment Method API User Guide v4.0.0

The Payment Method API goal is to support the frequently-used payment methods for the customer to choose and pay the usage, including voucher card, coupon, and money transfer

This API allows the following operations

- Retrieve a list of payment method stored in a server filtered by a given criteria
- Retrieve a specific payment method
- Delete a specific payment method
- Update a specific payment method.
- Create a payment method (including the subtype)
