

2022-Information Systems Architecture Project Charter

* indicates that this field is required

Project Name*	Information Systems Architecture
IPR Mode*	RAND  Explanations of each mode is available at http://www.tmforum.org/IPRPolicy/11525/home.html
Type of Project*	Development Project
Strategic Program	Cloud Native IT & Networks
Previous Project Charter	First Release
Project Workspace Link	Information Systems Architecture Project Home
Project JIRA Link	See Section 4 below
Project Sponsor	N/A
Project Team Lead*	Sylvie Demarest - Orange Emmanuel A. Otchere - Huawei
TM Forum Staff Support	Ian Turkington - VP, Architecture and APIs Dave Milham - Chief architect Avi Talmor - Subject Matter Expert Kevin Scaggs - Subject Matter Expert Alfred Anaya-Dubernard - Director Conformance Certification and Digital Maturity Services Goutham Babu - Agile Project Manager

2. Project Overview / Executive Summary

M i s i o n	To maintain the Information Systems Architecture elements of ODA, in response to project demand and technology developments. Specifically, the Process framework (eTOM), the Information framework (SID), the Functional Framework (FF), the application map (TAM), and the Metrics.
V a l u e	TM Forum's Open Digital Architecture (ODA) is a collective vision for our industry. It offers an industry-agreed blueprint, language and set of key design principles to follow. It addresses a wide range of challenges brought about by market, business model and technology changes. And will enable service providers to deliver at speed, quickly respond to changes, simplify the building of partner ecosystems, strengthen and simplify the procurement process, support zero touch operations, and reduce total cost of ownership. The Information Systems Architecture project provides and maintains the Process, Information and Functional frameworks for ODA.

S t r a t e g y	The Information Systems Architecture project will maintain existing frameworks, and develop them response to market, business, and technology changes. This will involve working with other projects to understand and respond to their demands.
--------------------------------------	--

3. Participants

This section identifies the project team members.

* indicates that this is a required field or role.

Role	Name*	Company*	Confluence "@" mention	Comments
