1. Project Information

* indicates that this field is required

Project Name*	Components & Canvas Project
IPR Mode*	RAND <div> Explanations of each mode is available at http://www.tmforum.org/IPRPolicy/11525/home.html</div>
Type of Project*	Development Project
Strategic Program	Cloud Native IT & Networks
Previous Project Charter	2022-Technical Architecture & Components Project Charter
Project Workspace Link	Components and Canvas Project Home
Project JIRA Link	See Section 4 below
Project Sponsor	N/A
Project Team Chair	Component & Canvas Steering Committee (Rotating - Leads for Sprint 3 below) Brian Cappellani Sylvie Demarest Component Specification Gaetano Biancardi Component Conformance Brian Cappellani Canvas Hugo Vaughan (TM Forum) Technical Architecture Yuval Stein ODA-CA Lester Thomas John Harvey
TM Forum Staff Support	Hugo Vaughan (TM Forum) - Subject Matter Expert Dave Milham - Chief architect Amaia White - Collaboration Programme Manager

2. Project Overview / Executive Summary

Mission	To specify a set of standardized, reusable, software-defined components, connected via Open APIs. And to specify a standardized operational environment which provides services for the management and operation of the components. Together the components and the canvas will deliver improved interoperability and portability. (Plug-and-Play!)
Value	TM Forum's Open Digital Architecture (ODA) is a collective vision for our industry. It offers an industry-agreed blueprint, language and set of key design principles to follow. It addresses a wide range of challenges brought about by market, business model and technology changes. And will enable service providers to deliver at speed, quickly respond to changes, simplify the building of partner ecosystems, strengthen and simplify the procurement process, support zero touch operations, and reduce total cost of ownership. The Components and Canvas project provides the Components and Canvas specifications to enable interoperability and portability within ODA.
Strategy	The Component and Canvas project will maintain existing Component specifications and develop new Component specifications in response to market, business and technology changes. And develop the Canvas specification, including the specification of the Canvas as Services. The project will also develop the Component and Canvas architecture, primarily in response to technology developments.

3. Participants

This section identifies the project team members.

* indicates that this is a required field or role.

Role	Name*	Company*	Confluence "@" mention	Comments
Project Team Chair*	Gaetano Biancardi Emmanuel A. Otchere	Accenture Huawei	Gaetano Biancardi Emmanuel A. Otchere	
Subject Matter Expert	Dave Milham	TM Forum	Dave Milham	
TM Forum Theme & Product Owner	Hugo Vaughan	TM Forum	Hugo Vaughan (TM Forum)	
Project Manager	Amaia White	TM Forum	Amaia White	

4. Project Workstreams and Deliverables

The project workstreams and deliverables for this project are introduced in the sections below.

Sprint 2023-1
