

# Event Information - Hack May 2015

Nice, France  
Friday, May 29, 2015 8:00 am to  
Saturday, May 30, 2015 6:00 pm

CEEI NCA Business Incubator  
1 Boulevard Maître Maurice Slama  
06200 Nice, France

[Hotel and travel](#) [REGISTER NOW](#)

Back in its second year, TM Forum is bringing together enterprise developers, designers and technologists from around the world to create, hack and deliver meaning solutions to improve the quality of life through innovative applications. If you're passionate about developing the latest technology, tools and services for tomorrow's smart citizen in the picturesque host city of Nice, France, then register for FREE. Participants will have two days to build and code their app solution with help from sponsors – including Oracle, IBM and Orange – and access to top notch technical experts while they compete for their share of 10,000 Euros available in cash and prizes.

**The winners will be announced at [TM Forum Live!](#) on June 1st.**

This Hackathon is about building on common infrastructure such as standardized APIs to enable scalability, growth, and ease of integration. Reach across ecosystems with our digital toolbox to create enterprise solutions in the smart citizen space!

## Sponsors

If you're interested in sponsoring or partnering with TM Forum for the Hackathon, please contact Ryan Young at [ryoung@tmforum.org](mailto:ryoung@tmforum.org).

<b>The Hackathon is free for all developers!</b>	<b>Already attending <a href="#">TM Forum Live!</a></b> <b>Then bring your developer colleagues along to the event for 50% off the Gold Pass!</b>
What's in it for you, the developers?	<ul style="list-style-type: none"><li>• Gain exposure to end users, city officials, local businesses, entrepreneurs, and large companies for both, you and your product.</li><li>• Winning teams will be presented before the attendees of TM Forum Live!, where over 3,000 industry leaders will be gathering.</li><li>• Meet subject matter experts from Fi-Ware, IBM's Bluemix and Orange Datavenue products. Wear a nice shirt</li></ul>

Case Challenges	<p>The below three examples are purely suggestions and should be treated as inspiration to identify your own challenge to hack. These examples make use of all the APIs and platforms available at the Hackathon:</p> <ul style="list-style-type: none"> <li>• <b>Smart Garden</b></li> </ul> <p>Hack out some green thumb applications. Let us see what you can do with our API sandbox to help keep our public spaces clean and beautiful. Think public safety. Think biometrics</p> <ul style="list-style-type: none"> <li>• <b>Let's Lunch</b></li> </ul> <p>See if you can find the most efficient way to mash up these APIs to get a lunch date! Combine GPS, maps, coupons, order management, and SMS APIs to order lunch at a discount, and see your friends who happen to be in the vicinity.</p> <ul style="list-style-type: none"> <li>• <b>Health Tracking</b></li> </ul> <p>Take e-health services to the next level. Use the provided tools to allow users to be seen by a physician, fill a prescription, and have medicine delivered to their door in one simple, seamless application.</p>
Teams	<ul style="list-style-type: none"> <li>• Teams of 2-5</li> <li>• You will be assigned a team based on your expertise</li> </ul>
Meet the Experts	<p><b>Pierre Gauthier</b>, Chief API Architect, TM Forum Expert in APIs, Java Guru, Published Author</p> <p><b>Michael Alexander</b> IBM Distinguished Engineer, S&amp;D Global Telco Industry Global Architect, Member Industry Academy Mike works with clients in the Telecommunication industry and focuses on industry strategy and solutions related to networks, service delivery, new technology engagements, and Internet of Things.</p>
Prizes	<p>Winning teams will be presented before the attendees of TM Forum Live!, where over 3,000 industry leaders will be gathering.</p> <p>Meetings will be set through TM Forum's Executive Appointment Services (EAS) program.</p> <p>10,000 Euros in Cash and Prizes provided by TM Forum and its sponsors!</p> <ul style="list-style-type: none"> <li>• First prize: 5,000 Euro</li> <li>• Second prize: 3,000 Euro</li> <li>• Third prize: 2,000 Euro</li> </ul>
Judges & Judging Criteria	<ul style="list-style-type: none"> <li>• Judges will be announced 1-2 months prior to the Hackathon so please check back soon.</li> <li>• Teams will be judged based on an equal weighting of the following four criteria: <ul style="list-style-type: none"> <li>◦ How well does the idea solve the problem that was identified?</li> <li>◦ What level of disruption or innovation does the idea bring to the problem's market?</li> <li>◦ What is the current operational functionality?</li> <li>◦ What is the technical feasibility of a product roadmap?</li> <li>◦ Most innovative use of the TM Forum API</li> </ul> </li> </ul>
Eligible Participants	<p>Enterprise Application Developers, Engineers, and Power Users with a background in IOT and mobility.</p> <p><b>Recommended experience:</b></p> <ul style="list-style-type: none"> <li>• REST APIs (Python, Java, Javascript, C##)</li> <li>• HTML 5</li> <li>• Mobile Applications</li> <li>• System Integration</li> <li>• Exposure to TMF SLA, Trouble Ticket, Product Order and Product Catalogue APIs an advantage</li> </ul>
Resources	<ul style="list-style-type: none"> <li>• <a href="#">Developer Portal</a></li> <li>• <a href="#">First TM Forum Hackathon</a></li> <li>• <a href="#">Previous winner</a></li> <li>• <a href="#">The 'Smart City Innovation Center' opens in Nice</a></li> </ul>
