

Easier to Work With Files & Attachments

Easier to upload, embed, and preview files and attachments.

- To upload a new file of image simply drag and drop it from your Computer into the Confluence editor. The image will be automatically uploaded
- Office documents can now be previewed in Confluence without having to download them
- You can even edit Office documents!
- You can add inline comments to images and documents without leaving Confluence

Example

Here's is an example excel file, click on it to see the "preview" funtion now available.

Inline commenting now available

Note that [inline commenting](#) is also now available on attached files:
