

Huawei APIs For Nice

Hi, Welcome to Huawei APIs page.

For TM Forum Open Hack in Nice Huawei will provide three categories of APIs. They are

- **ICT service enabling related APIs** provided by **Huawei CloudOpera IES**, covering the capabilities of cloudify network service instantiation & provisioning and service monitoring & on-demand adjustment.
- **Big data analysis related APIs** provided by **Huawei FushonInsight Universe**, covering the capabilities of location insight, customer insight and digital marketing.
- **Revenue management related APIs** provided by **Huawei Digital RM**, covering the capabilities of prepaid balance management.
