

product API Salesforce Mapping

/inventoryApi/product/{ID}

Supported Methods

GET, PATCH, PUT

Description

The customer service is primarily mapped to the Salesforce Asset objects. The service can either be used to retrieve a collection or a specific record (using {ID} at the end of the service). This service is partially supported (i.e. only fields and sub entities that conform to Salesforce model are mapped).

RESOURCE	ELEMENT	SALESFORCE FIELD	OTB MAPPING
{
