TMF676 Payment Management API REST Specification R18.0.1

The Payments API provides the standardized client interface to Payment Systems for notifying about performed payments or refunds. Examples of Payment API originators (clients) include Web servers, mobile app servers, Contact center dashboards or retail store systems.

Latest Update: TM Forum Release 18.0.1	**Status: TM Forum Approved**
Version: 1.0.2	**IPR Mode: RAND**
